Why I want to run for Regional Director: I want to run for Regional Director to continue to support and improve the game of football in the state of Michigan. Football is a great tool for kids to learn the importance of hard work, team work, and perseverance. I am dedicated to my community and I am a lifelong student of football. I am willing to do anything that is asked in hopes to improve the game. I am also willing to listen and contribute with my colleagues to continue the success of the game and the MHSFCA. I want to work toward increasing the opportunities for kids in rural areas to experience the joys of football. Whether that includes camps, demonstrations, or different activities related to football. I would also like to help increase the MHSFCA's influence on informed decisions regarding the sport.

Why I want to run for Regional Director: To be an advocate for the Upper Peninsula schools that play 11 man football. We have a severe scheduling problem that seems to be only solvable with either a new play-off system or a different scheduling concept. We need to find something that is beneficial to all teams in our region.
