

Lenny Dantinne – Millington High School – Region 11

My name is Lenny Dantinne and I am an assistant coach at Millington High School. I have been a Region 11 Director the last four years (2 terms). I have enjoyed the work associated with this position in helping to promote the great game of football. As a representative from a region that includes many smaller schools, I feel it is important that we have an equal voice in the organization and throughout the state. I'm excited to hear things like the Thumb having a newspaper writer with a vote for the all-state AP selection next year! In addition, we are working to create an all-state team that actually has direct input/vote from high school football coaches (we know our athletes and our opponents better than writers do!).
